Capacity	1,08l. (up to 6 Persons)
Color	White / Pink
EAN	8 809019 401691

UVP : €99.99

- The Cuckoo rice cookers have a special 3D heat system . The heat comes equally from below, above and from the sides. This way, the rice is cooked evenly. The "PTFE" sheathing of the inner pot prevents any burning.

- The operation is very easy: Simply plug in the plug, done! Once the rice is cooked, the rice cooker automatically switches to the keep warm mode . The keep warm function keeps the rice warm for up to 12 hours without it drying out.

- The South Korean premium manufacturer Cuckoo is known worldwide for its high-quality rice cookers. Its "simple" rice cookers, which cook according to conventional methods, also get rice to perfection just like digital high-end appliances - but only at a lower price.

Made in Korea
