

# NAVEE N65i

(DE VERSION)

### Max 850W motor, rear-wheel drive

Easily conquer 24% slopes with 850W max power and rear-wheel drive. Unlock new levels of thrill and excitement.

### Extended range of 65km for super endurance

Powered by high safety 18650 lithium batteries and equipped with a smart BMS, your battery's safety is constantly monitored.

### 10.5" wide tubeless tires, enhanced comfort

The 10.5" wheel diameter offers 45% more air volume than regular 10" tires, ensuring a smoother and more comfortable riding experience.

### Triple braking system for high-speed safety

Equipped with rear EABS and front drum and rear disc brakes, our scooter delivers a powerful triple brake series, ensuring a stable and safe ride.

### 48V high voltage platform, unmatched acceleration

Powered by a 48V high voltage platform, our scooter reaches a top speed of 20km/h, delivering an unbeatable high-performance experience.

### Optimal ergonomics with 80mm wide tires

The robust SUV design ensures a comfortable and relaxed riding posture. And 80mm wide tires provides superior stability and control on any terrain.

### Unlock more features with NAVEE APP

The NAVEE APP brings you a world of possibilities, upgrading your riding experience with versatile functions at your fingertips.

### Double rotation design, redefining portability

NAVEE's iconic folding design is adopted for compact storage. The volume ratio can reach 15% compared to before folding.

### E-mark certified turning lights, additional safeguard

By showing the way you are going, the indicators ensure safety and decrease danger at every turn.

### Smart suspended display, a better vision

4" suspended screen can be seen more clearly even under strong light outdoors. Riding data is easy to be read immediately.
